Introduction

Dear customer!

We are very pleased that you decided to purchase this product from kstools. Thank you for your confidence in us. You can find all the information you need in these operating instructions. Please read the instructions completely with care and observe the advice given. The operating instruction is part of the item and should be kept intact.

If you have any uncertainties or further questions, please contact: customerservice@competitiontools.com

1. Provisions for use

The manufacturer is not liable for personal injuries and material damages which result from improper use.

Pay heed to the vehicle manufacturer's specifications!

2. Safety and Instructions for Use

Tools must generally only be used for their intended purpose, under the specified conditions and within the limits of their intended use.

3. How it works

Using the device

1. Insert the batteries

Insert 2 AA alkaline batteries.

2. Clean the probe

Clean and dry the probe before each measurement.

3. Start the device

Press the  button → The self-test will start automatically.

- Flashing battery icon = Change the batteries
- No response = check/replace the batteries

4. Take a measurement

- Select the specification using the selection button if necessary
- Immerse the probe completely in the oil

Press the  key and wait for the result

5. After the measurement

- Clean the probe
- Automatic switch-off after 5 minutes
- Switch off manually: Press and hold the  button for 2 seconds

Calibration (fine-tuning)

Adjust using a small screwdriver:

- Turn right: The reading is rising
- Turn to the left: The reading is falling

4. Maintenance

Faulty or defective spare parts may cause damage.

5. Control

All tools must be checked for damage.

6. Disposal

The tool must be disposed of or recycled in accordance with the relevant national legislation.

7. Guarantee

The KS Tools Werkzeuge und Maschinen GmbH guarantee applies for all tools that are used under normal usage conditions.

The following are excluded from the guarantee:

- **Consumables** e.g. any type of cutting tools, cutting inserts and disks, cutting and scraping tools, brooms, brushes, files, batteries, bits or bit sockets, rotor blades in pneumatic devices, isolators on heating coils, any type of fuses, carbon brushes, etc.
- **Faulty functioning** of parts that show usage-related or other natural wear and tear, as well as tool defects that can be traced back to usage-related or other natural wear and tear.
- **Defects** in the tool that can be traced back to a failure to observe the operating instructions, improper use, use under abnormal environmental conditions or unsuitable operating conditions, overloading or improper maintenance.
Also defects in tools caused by the use of accessory parts or other parts that are not KS Tools original parts.
- Tools which have been modified or equipped with additions.
- Minor deviations from the intended quality that are however insignificant for the value and suitability for use of the tool.

The guarantee period is 12 months in cases of industrial or equal use.

The guarantee period starts on the date of purchase by the commercial end customer. The date of the original purchase receipt is decisive. For technical products with limited guarantee types A, B and C, the user must principally submit the purchase receipt in addition to the serial number of the device, if present.

The guarantee applies under consideration of the guarantee type for the duration specified in the price list valid on the day the product was purchased.

If no guarantee claim exists for the product (expiration of the guarantee time, guarantee exclusion for the reasons listed in Sec. 2) but the repair is still possible, this will only be carried out following approval of the cost estimate by the user.
